

2010 Herdsires

1. *B Barnowl Gandalf American black/tan sundgau w/ white DOB: 06/2007

Gandalf is a tall, large-framed, and sharp 3 year-old buck who excels in feet and legs, smoothness of blending, body capacity, and strength of bone. In his one and only buck show he was Reserve Champion twice in tough Northwest competition. Multiple herds have now used Gandalf and his kids have demonstrated great consistency in being tall, long, and growthy with superb dairy character and sharpness throughout. We anticipate well-attached and capacious mammarys on his daughters much like we have come to expect from our Travis daughters—six of which are pictured below. **Gandalf's littermate twin**, GCH Golden Compass 2*M quickly finished her star milk record and her championship at her new Kickapoo-Valley home winning 4xGCH and 3xBOB this year, including being Illinois State Fair Best of Breed.

 SD: SGCH Kickapoo-Valley Respect Sequel
 2006 ADGA National Champion
 LA 5-2 FS92 EEEE
 D: SGCH Barnowl Bewitched *M

2. Tempo Very Dark Purebred black/tan sundgau DOB: 03/2007

Much like his paternal brother Gandalf, Dark is a tall, long, and sound buck that displays even more strength of dairy character and overall refinement of bone. We have been so impressed by the consistency of our Travis daughters with their strength across the scorecard and superb mammary systems—as Laurie notes, “another Travis udder” is a common comment heard at NW shows. Just take a look at six of his daughters below. This year we are focusing on line-breeding off Travis and couldn't be more excited to get to also introduce genetics from this beautiful Tempo maternal line. Audrey was one of Laurie's foundation LaManchas and was Katya's co-hort in crime, to say we've long since admired Audrey's and her daughter's style, dairyness, and structure would be a huge understatement—and we are excited to introduce those elements into our herd!

3. SG +*B Kastdemur's Tach Lach Purebred white DOB: 04/2005 2009 ADGA National LaMancha Premier Sire

S: *B Kastdemur's Sting
SS: *B Mauldin's MM Expensive Habit
SD: SGCH Kastdemur's Slice 3*M
 2005 National Champion, LA 5-5 FS93 EEEE
D: SGCH Kastdemur's Evian 3*M
 2008 & 2009 ADGA National Champion
 LA 3-5 FS92 EEEE, 4-3 FS94 EEEE
 DS: GCH ++*B One Oak Hill Medicine Tumult
 7x ADGA National LaMancha Premier Sire
DD: SGCH Kastdemur's Sprite *M

Laurie bought Tach when Evian was just a milking yearling and we were fortunate enough to get to use him early on. Since then, his dam has been ADGA National Champion twice (inset picture), his daughter Tempo Eviana won Reserve National Champion, and his other progeny continue to dominate in the show ring, milk room, and on appraisal day. Tach himself is a long, level large-framed buck who excels in dairy character. His daughters have impressive mammary systems, but it is their consistency of this stylish general appearance that is perhaps most impressive and makes most any combination of the daughters a successful get of sire.

4. Barnowl Anteros Amer. black/tan sundgau DOB: 03/2010

S: *B Barnowl Gandalf
 D: CH Barnowl Acythera

Anteros is an exciting young buck that combines **Fish's size, strength, and style with Gandalf's refinement** and dairy character. We are looking forward to using him where we can this fall. Although he proved to be much more camera shy than either happy-to-be-in-the-limelight mother or father!

5. Barnowl Quantum Leap American white DOB: 05/2008

Quantum Leap is the twin to Quantum Magic, our 2008 Spotlight Sale consignment (purchased by Jocelyn Morris). He is an incredibly handsome buck that **we somehow didn't get a real picture of before he came into rut!** But he is the happy boy wishing everyone a wonderful **New Year's on the next page!** Instead we have included a picture of his lovely father, Vigilante News (owned by Cindy Silva). Quantum essentially looks like one of Laurie's big, powerful Saanen bucks—but without the ears. He is long and level with a wide, flat rump, superb dairy character, and very strong feet and legs. And his striking uphill carriage makes him a real eye-catcher in the field. We will be using him as a “clean-up” buck in late fall and he will be on lease for most of the breeding season.
